THALASSOTHERAPY

Thalassotherapy is a term of greek origin which means sea that cures. A completely natural cure which helps draw away stress, fight against signs of time and eliminate the imperfections of skin helping the correct functioning of cells. The results are guaranteed: thanks to the action of components such as mineral salts, low mineral contents, (limi), alga and muds, sea water assures a specific action of purification, replacement and wellbeing.

Since millenniums sea water has been considered a precious ally for beauty and wellbeing in mankind. Thanks to the saline content and to the presence of biogen organic substances, sea water has always been an inexhaustible source of benefits for the organism. This is the starting point of the Jean la Roches wellbeing project. A project borne and developed by using sea water and thalassotherapy.

Psyco-physical equilibrium

Beyond wellbeing to obtain a new psyco-physical equilibrium. High quality treatments and products, advanced methodology, innovative formulas to give not only beauty but new vitality and energy. Thanks to the combined action of Jean la Roches's products, instruments and methodologies, effective treatments give visible and proven results.

DEDICATED BEAUTY TREATMENTS

Body

Original and innovative formulas, enriched by sensual fragrances and selected active principles. Jean la Roches products for the body are cosmetics that, thanks to their combined action, contribute not only to beauty and tonal quality but also to givenew psyco-physical wellbeing, to relax and purify the body.

Objective Beauty

Creams, plastics and emulsions for the body based on natural products: a complete cosmetic line for cellulite, to firm up and give tonal quality. Professional products for hands, breast, feet and for the body using alga, sea collagen, sea elastin, muds and mineral salts. The strength of the sea as precious ally for beauty.

Massages

Beauty integrated with winding down and anti stress action: by using the beneficial properties of the sea, the Jean la Roches products are the answer for relaxed and detoxicated treatments. Message oils, gels, emulsions, sea water solutions and concentrated muds for turkish bath and hydromassage: exclusive formulas for new wellbeing.

Face

For a toned and bright skin, to fight against age, to stimulate the renewal of cells. The Jean la Roches face line uses principals and elements carefully studied and integrated for health and beauty of the skin. A perfect synergy between components of natural origin e biotechnology. An innovative range of products that act at the origin of imperfection with an effective and safe result.

Anti-age action

Sea water detergents, alginate and maple masks, anti-age marine elastin serum, round the eyes gel, alga and vitamin C face day cream and marine collagen for the night.

This is the Jean la Roches line to fight face ageing. A complete and effective line integrated by exclusive products, specific for all skin types: from the sensitive ones made with alga and Dead Sea salts protecting creams bilberry alginate and vitamin C masks, bilberry creams against redness and the dry ones (nourishing alga creams, tri-vitamin creams, hydrating alga masks).

A pure bright skin

The effectiveness of the natural elements to purify and smoothen the face. The Jean la Roches purifying face line is made up of a series of highly professional products, effective and specific in their action: clay and seaweed purifying mask, astringent fluid with seaweeds, and true aloe, purifying fluid, pot marigold and zinc oxide cream, peeling gel with jojoba microgranules, bearberry skin tonic, gel against pimples. Guaranteed results.

Wine therapy

The health properties of wine have been known for ages. Wine consumption was first noted in myths, legends and religious traditions at least 10,000 years ago.

The cosmetic importance in wine therapy is due to the precious characteristics of the polyphones in the grape seeds. Polyphones are known to prevent aging and contain an active antioxidant considered to be one of the most powerful in nature.

Vitamins C and E are also widely used to combat wrinkles and free radicalse. They are able to regenerate and protect the skin, prevent premature aging and reduce skin damage caused by pollution. They impede the destruction of hyaluronic acid and protect elastin and collagen fibers. Moreover, the face line contains quillaja saponaria and kigelia africana that guarantee an authentic temporary "lifting effect", ideal for relieving the tiredness accumulated during the day from your face.

Botox line

"It immediately reduces and relaxes your expression to its natural state".

This product is an innovative synergy of active ingredients that stimulate biochemical reaction and reduces facial wrinkles, remodels facial blemishes returning tone and compactness to the coetaneous tissue.

The anti-wrinkle therapy is based on acetyl hexapeptide-8 associated with jaluronico acid and Vitamin C with antitoxin properties. The hexapeptide-8 are neurotransmitters that cause muscles to contract produce effects similar to botulino but with the advantages of not "paralyzing" the muscle and not being a toxin.

Concentrated ultra botox 20% works extremely rapidly to return your skin to its natural elasticity and shine. The results are visible after the first treatment.

Hypersensitive line

This product is ideal for irritated, hypersensitive and undernourished skin.

This line's exceptional properties are due to the synergy of its two main components; capers extract that works to reduce irritation and hypersensitivity and inhibits the proinflammatory epidermal cytokines and argan oil, a plant indigenous to Morocco, that is rich with Vitamin E and its strong antioxidant qualities that nurtures for the skin's undernourishment caused by cell aging. It is also full of essential fatty acids, natural farnesol and tocopherol and has protective, reconstructing, regenerating and hydrating properties.

Chocotherapy body treatment

Antistress-modeling

Chocolate treatment is a stimulating experience, almost a sin of gluttony, with the only difference that calories stay on skin surface. Start with Choco-Scrub, then a salt and chocolate scrub; Follow a warm cocoa butter flow, (choco cream), rich in precious components stimulating endorphine production (pleasure hormones) and spreading a stirring fragrance, caffeine and kola, helping to shape body silhouette. It is possible then to start with a massage, adding the Choco Oil - previously warmed – to Choco Cream. Manipulation is never the same since it must adapt to the patient's body needs, while the aroma cherishes his soul, helps his breath become deeper and let him feel happier.

After a shower with Chocolate soap, a protective film lays on the skin sweetly isolating the body and spreading a long lasting cacao aroma.

Essential oils

Jean la Roches offer a 12 essential pure oil range, extracted by steam procedure.

Use of essential oils is suggested only after careful reading of the relevant technical specs and precaution due to their many properties and counterindications. Essential oils offered by Jean la Roches are: sweet orange, bergamot, eucalypt, lemon, mint, rosemary, lavender, bitter orange, basil, tyme and tee tree.

“Emotional” line of product

An experience for the senses, a formulation of stimulating active in synergy with the warm embrace of water, makes ingredients the four products of this line Emotionally uplifting leaving the skin unforgettably perfumed.

Honey therapy

Honey is a precious substance which has been appreciated for its nutritious and beneficial qualities since ancient times.

The products in the honey therapy range make the most of all the hard work bees put into making these wonderful ingredients. Honey, royal jelly, propoli and beeswax are nourishing and moisturizing. African kigelia and quillaja saponaria help tone and uplift, whereas the dog rose offers its antioxidant properties.

Jean La Roches

Gel against Pimples

Topical gel against acne (pimples and spots). This product eliminates hard skin and keratinic sebum deposits thanks to its profound cleaning and purifying action. Apply at night until it is fully absorbed. Rinse in the morning with the Seawater Skin Cleaner.

Main components:

Bearberry(grape ursine), urea, allantoin.

Eye gel

Recommended to prevent wrinkles and swelling of the periorcular area thanks to its softening and moisturising properties that help the skin preserve its suppleness and softness. This colourless gel does not alter make-up.

Main ingredients:

Sea collagen, sea elastine, soy proteins, marigold, bluebottle distilled water, hyaluronic acid,

Seaweed purifying cream

Cream for oily, greasy skins with dilated pores that help keep sebum levels balanced. Recommended as a day and night cream.

Main ingredients:

Codium tomentosum (algae), Bearberry(grape ursine), Vitamin C, Vitamin E, burdock, witch hazel (hamamelis virginiana), allantoin, gammaoryzanol, shea butter, xantam gum.

Hydrating Seaweed Cream

Day cream with natural sun filter recommended for dry skins..

Main ingredients:

Codium tomentosum (algae), ulva lactuca(algae), jojoba oil, shea butter, non-saponifiable olive oil material, soy proteins, what proteins, gammaoryzanol, allantoin, hyaluronic acid, vitamin E,

Antiage DMAE and Lipoic acid cream

The Lipoic acid opposes the action of free radicals strengthening the activity of all the other traditional antiradicals (Vitamin A, Vitamin C vitamin E).The DMAE (dimetil amino ethanol) it strengthens and stabilizes the cells of the epidermis favouring tonicity that result more compact and luminous . It acts also opposing the degeneration of the collagen maintaining skin even younger.

Active ingredients:

DMAE, lipoic acid, collagen, hyaluronic acid, magnesium phosphate of ascorbile, chondrus crispus(algae)

Hydrating seaweed mask

The moisturising and hydrating properties of this product guarantee the intake of natural sea-based nutrients that are necessary to preserve epidermis balance. Ideal to have a fresh and young look, possibly in combination with other products of the same line to complete the skin regimen.

Main ingredients:

Codium tomentosum, zinc oxide, avocado oil, shea butter, vitamin E, panthenol.

Clay and seaweed purifying mask:

Purifying and refreshing mask for greasy, oily and hyperkeratotic skins.

Main ingredients:

Green clay, sea tangles, Bearberry(grape ursine), zinc oxide, witch hazel (hamamelis virginiana), lemon essential oil, panthenol, allantoin.

Sea extract cleansing milk

Cleansing milk suitable for normal, mixed and dry skin. Gently removes make up and impurities from face skin leaving it fresh and clean. Its formulation combines the properties of vegetable extracts (marigold, chamomile, limetree) which are always well tolerated and have a gentle soothing action, with azulene extract with its calming and anti-inflammatory action.

Main ingredients:

Undaria Pinnatifolia (algae), oak meristematic extract, chamomile, azulene, marigold, limetree, avocado oil, sweet almond oil.

Jean La Roches

Botox cream 20%

Cream with a lifting effect. It exploits the properties of an aminoacido that provokes a muscular contraction, obtaining effects similar to those of botulin with the advantage however of not paralysing the muscle and not being a toxin. Furthermore the presence of yaluronic acid increases the reduction of expression lines the reduction of expression lines by creating a thin invisible, elastic and protective film on the skin. Skin therefore appears constantly bright, compact and healthy, with visibly more relaxed features.

Active ingredients:

Acetyl hexapeptide-8 echinacea, yaluronic acid, jojoba oil.

Concentrated ultra botox 20%

It is an Acetyl Hexapeptide-8 concentrate 20% (on which the anti wrinkle action is based) prevents neurotransmitters which cause muscles to contract and acts just like botulin. Features reshaping can be noticed soon after some few applications through a toning and stretching action on the skin. It is not a toxin and does not paralyse muscles. Treatment: Spread with a massage, with galvanic wave devices or with electroporation. Such treatment is to be repeated twice a week in an institute for a total amount of 15 times. It is absolutely necessary to carry out the preservation treatment at home with Botox cream 20%.

Main ingredients:

Acetyl Hexapeptide-8

Argan and caper oil hypersensitive mask

This mask has a deep lenitive and protective action and strongly balances denourished skin affected by cell ageing thanks to its richness in Vitamin e and the powerful antioxidant properties. It is also rich in essential fatty acids, flavonoids and natural tocopherols and has protective, restructuring, regenerating and moisturising properties. The product is ideal for use on irritated, hypersensitive and undernourished skin in combination with other products of Hypersensitive line thus giving the final touch and empowering their benefits.

Main ingredients:

Argan oil, caper extract, zinc oxide, indian fig, olive oil

Argan and caper oil hypersensitive cream

Day/night cream ideal for use on irritated, hypersensitive and undernourished skin. The incredible properties of this product line are due to the synergy of its main ingredients: caper extract reduces irritation and hypersensitivity by preventing epidermal proinflammatory cytokines. The oil coming from argan fruit (a plant from Morocco) is very rich in vitamin E and strongly antioxidant. This deeply helps skin to fight against cell ageing. This oil is also rich in essential fatty acids, flavonoids and natural tocopherols and has protective, restructuring, regenerating and hydrating properties.

Main ingredients:

Argan oil, caper extract, indian fig, olive oil

Soothing blueberry cream

Ideal for reddened skins, this cream contains a natural sun filter and blueberry extracts that guarantee protective and soothing properties.

Main ingredients:

Sweet almond oil, codium tomentosum(algae), vitamin E, sweet almond oil, blueberry extract, gammaoryzanol, soy proteins, wheat protein, Ulva lactuga(algae).

Peeling Gel with Jojoba Microgranules

Gel for accurate cleansing of any type of skin; jojoba micro-granules are absorbed as they are massaged into the skin, thus releasing jojoba oil; this adds to the chemical properties of urea, which acts as a keratolytic.

Main ingredients:

Jojoba, urea, crithum maritimum (algae).

Peeling gel with grape seed microgranules

This gel purifies face skin, remove toxins and makes skin smoother. This product exhaustively and efficiently fights the action of free radicals thanks to the powerful antioxidant agents contained in the grape seeds.

It leaves skin more fresh, relaxed and bright.

Main ingredients:

Wine extract, red grape extract.

Jean La Roches

Seawater soothing tonic

Hydrating tonic for normal and dry skin. Completely without alcohol, it is incredibly fresh. It does not irritate. It removes make up and impurities deeply preparing skin for further treatments. Thanks to seawater this product has also a toning and slightly astringent effect.

Main ingredients:

Seawater, Undaria Pinnatifolia (alga), sea collagen, algae.

Sea collagen

Active concentrate of pure collagen for total skin regeneration. It has a toning action on face skin giving it a fresh and young look. It can be spread by massage, galvanic wave devices or by electroporation thanks to the high content in amino acids (especially hydroxyproline). It can significantly increase skin moisture and suppleness; besides, it also bears restructuring properties for collagen, in addition to mucopolysaccharides and elastin, makes up the connective tissues of the dermis. Molecular chains are evenly distributed along the horny layer and form a macromolecular film making up for inevitable water losses owing to perspiration insensibilis. Therefore, it indirectly contributes to the humectation of corneocytes, keeping the skin sound and healthy.

Main Ingredient:

Sea collagen

Vitamin C

Concentrate of Vitamin C 50%.it is obtained through an exclusive procedure that guarantees a high content of natural vitamin C. it is extracted from fresh oranges, the Bionde di Calabria variety, which are particularly rich in vitamin C. The skin is rich in essential oils providing a natural protection against oxidation and bacterial contamination. Besides, pectins contained in the pulp, thanks to the innovative extraction process, form a sort of protective capsule, thus allowing the full and best exploitation of vitamin C active principles.

Vitamin C is essential in fighting against free radicals, which are responsible for collagen and elastin deterioration. Treatment with Vitamin C is based on massage or galvanic wave devices or electroporation.

Main Ingredients:

Vitamin C, xantan gum.

Hyaluronic acid

It is a concentrate with immediate benefit based on hyaluronic acid. Spread by a massage or used with galvanic wave devices or with electroporation in antiageing treatments helps the skin to be preserved tonic, elastic and young.

this essential component of connective tissues regulates the water content of intercellular substances and the permeability of connective tissues themselves. Besides, it reinforces tissues, binding water to the intercellular matrix of the dermis as a real molecular sponge. It is one of the most powerful active principles used as a beauty treatment aimed at guaranteeing the proper balance of water in tissues; finally its repair properties help water molecules be bound together sevenfold their weight.

Main ingredient:

Hyaluronic acid

Jean La Roches

Dead sea salt

Dissolved salts are useful in many treatments : hydromassage, foot baths, scrub, massages, electrosculpture, bandaging and pressure therapy.

Active ingredients:

Magnesium chloride, potassium, sodium, and calcium, bromide, sulfates, crystallization water

Mother water from dead sea

Its composition is mostly made of sodium chloride, and small percentages of calcium, magnesium, potassium, iodine. It can be used together with dead sea muds, in bandaging to increase mineral salts and whenever osmotic action needs to be exploited to drain excess liquids

Active ingredients:

Dead sea water

Dead sea mud

From the dead sea in the deepest point of earth's crust

(Around 400 below sea level) the world's largest natural "beauty spa" , the saltiest sea in the world (around 32% of salinity)its water contains over 25 minerals and oligoelements.

Properties of dead sea muds derive from their particular composition of mineral salts that deeply penetrate in the skin favouring "inverse osmosis" By removing toxin they give freshness and vitality.

Active ingredients:

Magnesium, potassium, calcium, sodium, zinc.

Seaweed foot lotion

This cooling, deodorant, softening and soothing lotion prevents the formation of callosity.

Main ingredients:

Sea tangles, thyme and rosemary extract, allantoin, aluminium chloride, Vitamin E, sunflower oil.

Seaweed and Cocoa butter Hand Cream

Semi-fluid lotion rich in softening and soothing active principles for hand treatment and protection; used regularly, it restores the hydro-lipidic balance of hands, preventing reddening and chaps.

Main ingredients:

Chondrus crispus (algae), bee's wax, cocoa butter, sweet almond oil, pot marigold extract, allantoin.

Basic Massage Cream

Mild, soft and fluid cream for body massage. Ideal for professional use, especially in combination with essential oils.

Body Skin-toning cream

Elasticising cream for the treatment of dry and relaxed skins.

Main ingredients:

Elastin and sea collagen, centella asiatica, echinacea angustifolia; horsetail, shea butter, sunflower oil, vitamin E, glycolic acid

Skin-toning Mud

Mud for the treatment of dry and relaxed skins.

Base mud clayey of easy use (it is removed with sponge and water) for the treatment of relaxed skins tendency to the atonia, studied for being used with wrappings in cartene

Main ingredients:

Sea tangles, sea elastin, echinacea angustifolia, horsetail, centella asiatica, argilla, urea, dead sea salt, sea elastin, sea collagen, lemon essential oil.

Concentrated reshaping anticellulite treatment

Formulated with liporeductyl which carries out its fat-reducing action directly on the adipocyte (fat cells) .Within a short time it stimulates cells to help drain and combat fatty deposit . Skin appears smoother and more compact and "orange peel" skin is visibly diminished .It can be used both through massage or for use with galvanic wave and electroporation machinery. The following result can be obtained : moisturized and tones skin,

Coadjuvant Seaweed and Guarana Anti-cellulite Mud

This anti-cellulite mud guarantees a strong lipolytic action against fatty tissues owing.

Base mud clayey of easy use (it is removed with sponge and water) studied for treating the inestetismis of the cellulites.

It creates a strong stimulation that reactivates the metabolism of the adipose cells thanks to the carnitina and an activity due drenante to the salts of the dead sea. Main ingredients:

Caffeine, dead sea salts, fucus, Chondrus crispus (algae), Chritmum maritimum (algae), guarana, ivy, urea

Skin-toning gel with Ginseng and Kigelia africana

This skin-toning treatment is rapidly absorbed thanks to its natural ingredients and is ideal for use on relaxed and flaccid skins owing to age, stress, intoxication or sedentary habits. The product is recommended for professional local treatment (packs) or in combination with ultrasound, electrostimulation and endothermal massage. This gel can be also used for post-treatment massage. Use at home as a maintenance regimen.

Main ingredients:

Ginseng, Kigelia africana , horse-chestnut, echinacea, mint.

Oak and Cola Gel for fibrous cellulite

This anti-cellulite treatment is rapidly absorbed thanks to its natural ingredients. Ideal for the treatment of fibrous cellulite, this product is particularly active in stimulating cellular metabolism and boost anti-cellulite reactions.

Besides, the formation of cellulite is slowed down owing to its plant ingredients, thus keeping fat levels balanced. The product is recommended for professional local treatment (packs) or in combination with ultrasound, electrostimulation and endothermal massage. This gel can be also used for post-treatment massage. Use at home as a maintenance regimen.

Main ingredients:

Cola, oak tree, coffee, pineapple, carnicine, Seville orange.

Draining Gel for oedematous cellulite

Draining product recommended for the treatment of first-stage panniculopathy (cellulitis) and water retention. This gel contains substances able to drain subcutaneous fluids in excess. The product is recommended for professional local treatment (packs) or in combination with ultrasound, electrostimulation and endothermal massage. This gel can be also used for post-treatment massage. Use at home as a maintenance regimen.

Main ingredients:

Centella asiatica, guarana, birch, ivy, caffeine, lemon.

Modelling Gel

Slimming and modelling treatment ideal in presence of adiposity and cellulite. Plant extracts foster metabolic activities, stimulate microcirculation and the drainage of interstitial fluids. The product is recommended for professional local treatment (packs) or in combination with ultrasound, electrostimulation and endothermal massage. This gel can be also used for post-treatment massage. Use at home as a maintenance regimen.

Main ingredients:

Gingko biloba, blueberry, green tea, butcher's broom, gymnea, cypress.

Liquid Seawater Bandaging

Based upon the use of highly concentrated sea salts, this product restores the right biological balance of your body.

The bandages help remineralise the epidermis, boost circulation and regenerate the skin. Use is recommended as such or as diluter of the "Sea Salt Bandaging".

Main ingredients:

Sea water and seaweeds, juniper, cypress, rosemary.

Sea water essence

Concentrated solution scented of seaweeds and sea water, ideal for sea water therapies in Turkish baths, whirlpool baths and trimodal showers.

Main ingredients:

Sea water and seaweeds.

Jean La Roches

Sea Salt Scrub

With revitalising sea salts, plant oils and essential oils, this foot scrub helps exfoliate hard skin, leaving your feet feeling soft, smooth and thoroughly refreshed.

Main ingredients:

Sea salt, avocado oil, sweet almond oil, borrago oil, St John's wort oil, olive oil, sweet orange, lavender, piperita mint, rosemary, sour orange, cypress, basil, and juniper essential oils.

Anti-cellulite Cream with Seaweeds and Guarana

Cosmetic cream used as anti-cellulite treatment, rich in vegetable active principles, seaweeds and Dead Sea salts. Used to support treatments at the cosmetic booth as well as customers' home care.

Main ingredients:

Caffeine, ruscus, carnitine, escin, Chondrus crispus (algae), Chritmum maritimum (algae), beex wax, guarana, fucus, ivy, horse-chestnut, centella asiatica, vitamin E.

Massage cream with seaweeds and Dead sea salts

Liposoluble massage product recommended for any type of massage. Treatment can be customised by the beautician with the addition of essential oils.

Main ingredients:

Chondrus crispus (algae), fucus, horsetail, pot marigold, dead sea salts, sweet almond oil, true aloe, witch hazel (hamamelis virginiana), vitamin E

Micronized Algae

Algae in powder for immediate use with dead sea water or bendaging for slimming, sculpturing, and draining beauty treatment.

Active ingredients:

Algae, clay, marine salt, dead sea muds(powder)

Winetherapy salt scrub

This mixture of sea salts, vegetal oils and grape-seed oil revitalises and refreshes the skin, thus encouraging the elimination of fluids and toxins. Its anti-oxidant and nutrient action leaves the skin smooth, elastic and velvety.

Main ingredients

Sea salt, grape seed oil, sunflower oil, olive oil, vitamin E.

Cream for Wine-therapy Packs

Cream containing grape and wine extracts.

Ideal for professional treatment given its moisturising properties for it naturally fights against body ageing. Used after the peeling cream for wine-therapy and before the body massage oil.

Main ingredients

Grape-seed oil, red grape extract, red wine extract, shea butter, vitamin E

Body Massage Oil for Wine-therapy

Plant-based oil with moisturising and anti-oxidant properties. Ideal to complete wine-therapy regimens.

Main ingredients

Grape-seed oil, sweet almond oil, jojoba oil.

Wine essence for hydromassage

This is a concentrate very rich in wine and red grape extract characterised by the high vitamin and antioxidant content. It is ideal for anti-ageing, draining and toning treatments as well as for hydromassage, Turkish bath and trimodal shower

Main ingredients:

Wine extract, red grape extract

Jean La Roches
